*"The Grand Pavois La Rochelle is loyal to its initial vocation: to meet the needs of all our dedicated enthusiastic visitors and to offer water sports professionals the expected services! This year, it is our pleasure to give centre stage to Greece".*

**Alain Pochon, President of the association Grand Pavois Organisation**

## MESSAGE FROM THE PRESIDENT

### ALAIN POCHON

#### The show for real fans!

*We are delighted to welcome you to this 49th edition of the Grand Pavois La Rochelle, much awaited by all water sport professionals and the many enthusiasts among you!*

*A true showcase for the international water sports industry with 800 brands present and 750 boats on show, over the years, the Grand Pavois La Rochelle has become a major event in the international water sports calendar.*

*The Atlantic boat show remains, as it has been right from the start, loyal to its aims: to rise to the expectations of water sports enthusiasts; and to provide all the services that water sports professionals require. Previews of new products, sea trials, meetings and discussions with water sports professionals, initiations and try-outs: we look forward to meeting a large number of you who have to share this common passion.*

*Although the Grand Pavois La Rochelle 2021 will delight you with its many thematic spaces, this year you will notice that we have continued to adapt our show to promote offers from our exhibitor professionals and facilitate your searches and your needs in line with your centres of interest. Also, the Grand Pavois La Rochelle aims to be eco-responsible and pursues this approach among the professionals it brings together and its visitors.*

*We are also proud and happy to welcome Greece as the Guest of honour 2021.*

*A leading tourist destination, Greece is renowned for its stunning mountain landscapes, its natural wonders, its infinite coastline and its large and small islands famous around the world for their unequalled beauty. No doubt, all the professionals present will know how to convey to you their love and their passion for this destination placed under the protection of Zeus, Poseidon and Aphrodite!*

*Finally, remember that the Grand Pavois Organisation is an association managed by a Board of Directors comprising water sports professionals who want to serve the French, European, and international water sports industry in the present and in the future.*

*But before wishing you a good show, I would like to thank our loyal partners: the Nouvelle-Aquitaine Region, the Department of Charente-Maritime, La Rochelle Communauté d'Agglomération, La Rochelle Chamber of Commerce and Industry, Jeep, our new partner the Crédit Mutuel, not to mention the French Nautical Industries Federation which, thanks to their support, have contributed to the success of the Grand Pavois La Rochelle for many years.*

*We wish you all a great show!*

# ASSOCIATION GRAND PAVOIS ORGANISATION

## A UNIQUE STATUS

A Board of Directors composed of sailing professionals always governed the boat show - since 1973. It gives it a unique status in the world of exhibitions in France and abroad:

**President:** Alain Pochon

**Vice-President:** Jean-Jacques Lemonnier (Amel Yachts)

**Treasurer:** Yannick Hemet (Bénéteau)

**Secretary:** Boris Compagnon (Chantier Catana)

### **Administrators:**

Olivier Caris (Neel Trimarans)

Hélène de Fontainieu (Dufour Yachts)

Merry de La Poëze (Jeanneau)

Erwan de Vuillefroy (Fountaine-Pajot)

Olivier Grassi (Grassi bateaux)

Didier Le Moal (J Composites)

Paolo Serio (Dream Yacht Charter)

Christophe Soares (Navicom)

Benoît Tréguilly (Take Outdoors)

### **Grand Pavois Organisation**

Organizing each year since 1973, the International in-water boat show, the Grand Pavois. The association Grand Pavois (1901 French registration about associations) widened its activities in 1998.

In 1999, the association created a new events department named GPO - Grand Pavois Organisation - It was entrusted with the organisation of six editions of La Charente-Maritime/Bahia Transat 6,50, from 2001 to 2011.

At the same time, GPO took over the organisation of many ocean racing events: the stopovers for the Volvo Ocean Race and the Global Challenge, the departure

Village for the Solitaire du Figaro, the Défi Atlantique, the Grand Prix de France de Formule 1 Motonautique, the stopovers for the Clipper Race, the organisation of the naming and tour of Maud Fontenoy's L'Oréal Paris, the departure and arrival of the Velux 5 Oceans, the naming of François Gabart's 60-foot Imoca Macif and Yannick Bestaven's Class40 Le Conservateur, etc.

**The know-how of Grand Pavois, an international in-water boat show, is exported.** Between 2009 and 2011, GPO was in charge of the commercial development of the **China Shenzhen International Boat Show** (China), which became the leading Chinese in-water show after just a few editions. In 2013, Aix-Marseille Metropolis also entrusted GPO with the organisation of **Les Nauticales boat show in La Ciotat (4th French show)** until 2021.

Another event created by GPO, the **Rallye des Iles du Soleil** which will set out at the end of October 2022 from La Palma (Canary Islands) for Marie-Galante in Guadeloupe for the 4th year running.

GPO also works on several other water sport projects to highlight and demonstrate the quality of its know-how that is already well-known and widely recognised.

GRAND PAVOIS  
ORGANISATION

# A MAJOR NAUTICAL EVENT IN THE TOP 5 OF IN-WATER SHOWS

**The Grand Pavois La Rochelle positions itself as one of the leading shows in the water sports sector with 800 international brands, 750 boats on show, more than 110 previews and new products, and 80 000 visitors expected each year. Held at the end of September, it is THE event for gauging the health of the French and European water sports sector for the coming year... An event that has become a must over the years!**

**On an international level, the Grand Pavois La Rochelle is one of the Top 5 international in-water boat shows with 300 bateaux exhibited, many of which are available to test.** On a national level, the Grand Pavois La Rochelle remains a major event for many enthusiasts and the leading water sports event on the Atlantic facade with regions (Brittany, Pays de Loire and Nouvelle-Aquitaine) that are particularly dynamic in the water sports sector together generating almost half of the French turnover and the national workforce in the sector.

**Today, the Grand Pavois La Rochelle is one of the leading economic events in the Nouvelle-Aquitaine Region.** A platform for players from the water sports sector and sailing enthusiasts, **over its 49 editions the Grand Pavois La Rochelle has become a key partner of the Nouvelle-Aquitaine Region, the Charente-Maritime department, the municipality of La Rochelle and its Communauté d'Agglomération.**

A regional sector, 32% of which is concentrated in Gironde (Bordeaux and the Bassin d'Arcachon) and 55% of which in Charente-Maritime (La Rochelle and Rochefort), with a total of 1,200 establishments working in the water sports and sailing sector and 9,600 employees. First region in France in terms of the number of companies with 26%, **the Nouvelle-Aquitaine Region** is ahead of Brittany (25%), the Pays de Loire (18%) and the PACA region (12%). In terms of turnover and workforce, the Nouvelle-Aquitaine Region, with 19.5% of the national turnover and

22.4% of the workforce, lies in second place behind the PACA region (22.4% of the national turnover and 24.3% of the workforce).

With 460 km of coastline, 2,600 km of waterways, its 56 marinas offering 10,000 mooring places, and four islands, **Charente-Maritime** has displayed its wish to develop and support the water sports sector for many years alongside the Grand Pavois La Rochelle and Grand Pavois Organisation.

The water sports sector in **La Rochelle and its Communauté d'Agglomération (CDA)** in figures: 310 enterprises and professionals, 1,500 units leaving the La Rochelle's shipyards every year, 25 architect, design and engineering firms, 2,000 direct and indirect jobs, 46 qualifying and recognised training courses, 4,500 mooring places at Port des Minimes and 120 water sport events.

## **An event with strong values!**

Even though the Grand Pavois La Rochelle changes each year to adapt to the needs of the profession and its dedicated visitors, the DNA of this show created in 1973 remains and offers exceptional value for money in the world of international shows, the opportunity of trials and outings at sea, pontoons and quaysides where you will find true enthusiasts and, above all, an event widely recognised as being very welcoming in a region that has always been focused on the sea.

**The Grand Pavois La Rochelle, a show constantly evolving to meet the needs of water sports professionals and dedicated visitors!**

# A BOAT SHOW THAT EVOLVES

... EVERY YEAR

**15 March 1973**

**Constitutive assembly of the non-profit association**, the Grand Pavois, comprising eleven professionals from La Rochelle. Declaration of the association in the Journal Officiel de la République Française on **6 April 1973**.

**20 to 23 September 1973**

First in-water exhibition of sailing boats at the up and coming Port des Minimes!

**1988**

Creation of the show **Voiles de Nuit**.

**100 BATEAUX À L'ESSAI**

**DE NOMBREUX TEMPS FORTS**

**200 JOURNALISTES**

**6 JOURS DE SALON**

**WWW.GRAND-PAVOIS.COM**

**A leading tourist destination,** Greece is renowned for its stunning mountain landscapes, its natural wonders, its infinite coastline and its large and small islands, famous around the world for their **unequalled beauty**.

So why has Greece, a country of born sailors, not been guest country of honour at the Grand Pavois La Rochelle before now? This matter will be settled from Tuesday 28 September to Sunday 3 October, when this country, which has no point on land further than 100 kilometres from the coast, will be in the spotlight at the reference show for enthusiasts. It has to be said that **the sea is everywhere, whether the Ionian Sea or the Aegean Sea**. An amazing maritime area since there are estimated to be 6,000 large and small islands filled with a variety of colours and fragrances, villages with lime-washed walls, bewitching historic remains, and churches with vivid blue roofs. And what about the country's amazing **maritime history**, the tribulations of Ulysses, Greece's supremacy over the entire Mediterranean region as a thalassocracy or a true political power founded on the domination of the sea, not to mention Thalassa, the daughter of Aether and Hemera, a divinity who embodied the sea and more specifically the Mediterranean. Yes, Greece is truly blessed by the Gods, all the Gods!

And in addition to the sea and the sun, **Greece is a cultural and political melting pot**, a place where ideas, customs, languages, knowledge and people from South-eastern Europe and the Eastern Mediterranean have come together since Antiquity. There is also its music, songs, costumes and customs, not to mention its gastronomy, with a history spanning almost 4,000 years

that owes its special characteristics to the pure and unique quality products from its land. Yes, the Grand Pavois La Rochelle is delighted to welcome Greece, its treasures, its culture, its gastronomy, its sunshine, its turquoise waters and its eternal blue sky. Thank you for being here with us, thank you for presenting your country to us where time has a different meaning,

where the world is infinitely blue!

### **Dimitris Fragakis, Secretary General of the Greek National Tourist Office:**

*"It is a great pleasure for Greece to be the guest country of honour at the Grand Pavois La Rochelle 2021. The inseparable relationship between Greece and the sea is reflected in our long and glorious history, our traditions, and also our modern way of life. Throughout the show, the Greek National Tourist Office will propose a rich programme of events for young people and all our visitors, and will present the different themes of Greek maritime tourism and some new unexplored destinations. Because all you want is Greece!"*

For further information on Greece:

<https://www.visitgreece.gr/>

### **Highlights:**

- Thursday 30 September: Presence at the official inauguration of Grand Pavois La Rochelle of **Mrs S.E Aglaia Balta, Ambassador of Greece to France**.

- Thursday 30 September: Presence of **Mr Nikos Aliagas** (French TV and Radio host and photographer) for the inauguration of his photographic exhibition "Greece and the sea" in the Greece hall.

# YANNICK BESTAVEN

## PATRON OF THE GRAND PAVOIS LA ROCHELLE

**Yannick Bestaven, the magnificent winner of the 2020/21 Vendée Globe on Maître CoQ IV, will be the patron of the 40th edition of the Grand Pavois La Rochelle.** Yannick, the winner of an exemplary solo round-the-world race without any stopovers or any assistance, completed his circumnavigation in 80 days, 03 hours, 44 minutes and 46 seconds.

Yannick is a loyal and habitual visitor to the La Rochelle international in-water boat show. An essential event in the water sports calendar which he has attended as a competitor, as an exhibitor with his company Watt&Sea, and also as someone who loves the sea, boats and great stories.

### A look back...

In competitive terms, Yannick has a packed list of ocean-racing prizes with victories in Imoca 60, including the 2020/21 Vendée Globe, Mini 6.50 with La Transat 6.50 Charente-Maritime/Bahia 2001 (editor's note, Mini Transat), not to mention a double victory in the Transat Jacques Vabre in Class40 in 2011 and 2015. Remember that at the start of his 2008 Vendée Globe, which sadly ended prematurely, on the former "Aquitaine Innovations" owned by his friend Yves Parlier, Yannick took up the challenge of using only

renewable energies (sun, wind, water, etc..) to produce the electricity needed for the vessel's proper functioning. It was a first that led to the creation of the company Watt&Sea in 2009 and the concept of the hydro-generator which Yannick and Matthieu Michou designed, manufactured and marketed. The aim was to enable racing and leisure boats to supply their own electricity to meet their on-board energy needs. A feat he succeeded since Watt&Sea hydrogenerators have revolutionised electricity management, minimising dependency on combustion engines. A true revolution for long-distance yachts and racing boats!

### 2001, a look back at a long history with Grand Pavois Organisation!

A look back... 2001 will remain a memorable year in more respects than one for Yannick and Grand Pavois Organisation. Thar GPO (editor's note, for Grand Pavois Organisation) organised its at first edition of La Transat 6.50 Charente-Maritime/Bahia (namely the Mini Transat, the first one to depart from La Rochelle on its way to Brazil via Puerto Calero in the Canary Islands), Yannick built his Mini 6.50 prototype with his own hands, the same as Arnaud Boissières who also built his one alongside him. Both of them set sail on their prototypes flying the colours of "Aquarelle.com", both built according to Magnen-Nivelt plans. At the helm of the Mini 6.50 number 304, Yannick completed the route in 30 days, 00 hours and 23 minutes, winning the two stages and also the first edition of this Transat 6.50 Charente-Maritime/Bahia organised by GPO. Alongside him, Arnaud came 3rd at the helm of number 303. For the record, the name of Yannick's Mini 6.50 was Satanas, while Arnaud's was Diabolo... What a surprise!

Further information about Yannick Bestaven: [www.yannickbestaven.fr](http://www.yannickbestaven.fr)

Further information about Maître CoQ: : [www.maitrecoq.fr/lesprit-voile/](http://www.maitrecoq.fr/lesprit-voile/)

*Yannick Bestaven, the patron of the Grand Pavois La Rochelle 2021: "TheGrand Pavois? We were born practically at the same time. The event in 73 and me in 72. It has been part of my world for a long time. The Grand Pavois has a special place in my mind since its organisers were also the coordinators of the Mini Transat I won in 2001. Such wonderful memories with the entire team! Today, when you hear about the Grand Pavois, you think about one of the largest boat shows in the world, the one that marks the start of the year after the holidays. A professional team at the service of water sport professionals and all that based in La Rochelle. It attracts people from all over the world, both foreign and local exhibitors. It offers new encounters and new business. It is a vector of dynamism. I am extremely honoured to be the patron this year and wish the 2021 edition every success."*

# HERITAGE AND TRADITION SPACE

## PAST, PRESENT AND... FUTURE!

**Vintage, classical and traditional boats, Historical boats from Nouvelle-Aquitaine will be on show at the Grand Pavois La Rochelle 2021!**

Moored at a pontoon in the heart of the show, a sample of heritage boats will be presented including about a **dozen listed vessels** from among the 115 protected boats in the Nouvelle-Aquitaine Region. "Lasses" and oyster and mussel fishing sloops take pride of place alongside yachts and service boats. **The buoy layer "Clapotis" will celebrate its 101st birthday!**

All are invited to meet the dedicated owners and

visit and chat about these stunning vessels which continue to sail after being restored with great passion!

**Dauphin Vert, Clapotis, Vagaluna, Colomba, La Flèche, Notre Dame de la Clarté, Talion, Petit Salé, le Boucholeur, Duperré** will all be present in-water.

The emblematic sailing boat **Damien**, which Grand Pavois La Rochelle has accompanied since 2012, completely restored by the team led by the Friends of the Maritime Museum, will also be there!

Also, in this space, **three unusual boats will be present with Sinbad (1950) for Esprit de Velox** which will present its pioneering research, innovation and mediation programme combining an interdisciplinary and responsible approach to the ocean based on three main lines: the design of a bio-inspired energy-independent vessel with no operational environmental impact; the sharing of knowledge and the infusion of a culture of the Earth system. Esprit de Velox is an Ocean Decade contribution by the United Nations.

**Pordin Nancq (Carter 37 from 1974) for the Passe Coque Association**-The Passe-Coque association, created in 2019 in Morbihan works simply on saving and restoring boats which have been abandoned or which are destined for deconstruction. A concrete vision of the idea and concept of the renovation of boats. Meeting with the Member of Parliament for Morbihan Jimmy Pahun on Thursday 30 September. Not to mention **Bakéa**, an exceptional small versatile neo-classical cruiser hosted in partnership with Voile Magazine. The idea is that this one-off attracts a boatyard interested in creating its offspring...

**Discover the heritage boats, their messages and their projects, meet the owners and associations at the heart of the Grand Pavois La Rochelle: not to be missed!**

## Table ronde

> *Bateaux bois et patrimoine maritime...*

◆ Echanges autour des bateaux du patrimoine : contraintes et intérêt d'un bateau du patrimoine. La restauration, l'entretien, la prévention autour de ces unités de la plus modeste à la plus importante. Quel réseau pour échanger entre propriétaires, avec quelles entreprises, comment s'y retrouver face aux différentes approches et travaux ?

Un tour d'horizon pour appréhender l'univers des bateaux en bois d'intérêt en général car dans les bateaux bois, il n'y a pas que des bateaux Monuments historiques !

Avec la présence de Paul Bonnel / Charpentier de marine / Acteur incontournable des chantiers du Guip / Vice-président et Président par intérim de l'association «Skol ar Mor» école de charpente navale à Mesquer et à Saint Nazaire / Nommé Expert National pour le patrimoine maritime et fluvial par le ministère de la culture en 2021.

◆ **Jeudi 30 septembre – 17h00 / Espace Presse Grand Pavois**

• Dans la limite de 40 places, Covid oblige...

> Inscription par mail au Grand Pavois à l'attention de JM Chauvet > <https://grand-pavois.com/decouvrir/contacts/?to=pavois@grand-pavois.com#form>

GRAND PAVOIS

ESPACE

**Patrimoine & tradition**

# LA PLAGE... YOUR FEET IN THE SAND

## BOARD SPORTS AND DINGHY SAILING

**Did you know that the Grand Pavois La Rochelle is one of the only shows in the world to have its feet in the sand?** Since 2000, the show has presented all types of water sports (dinghy sailing, kayaking, board sports, etc.) at La Plage located on Minimes Beach.

### TRIALS AND TRY-OUTS FOR YOUNG AND OLD ALIKE!

**Two basins** will be set up for trials and introductory experiences in SUP, dinghy sailing, kayaking, and more. A unique opportunity for visitors to try the different activities

proposed. **Every year, more than 1,500 trials take place in the basins as well as at sea over the six days of the show.** This year, **Tribord** will be present at La Plage with water sports equipment available to try, **Birdy Fish** with its monohull dinghy, many board sport and dinghy sailing brands, such as **Starboard** and **iQFoil** (future Olympic windsurf), **Tahé Outdoors**, etc., not to mention a Vintage experience with **La Planche à Voile à la Papa** and its "World Championship".

### A COMPLETELY FOIL YEAR WITH THREE KEY EVENTS DURING THE WEEKEND!

**The National ETF 26 (7.80 metre foil catamaran).** We can announce the presence of Billy Besson (SailGP, Nacra 17 World Champion, Rio Olympic Games, Sailor of the Year in 2015, etc.), Yvan Bourgnon (winner of the Mini Transat and Transat

Jacques Vabre, solo round-the-world race in a racing catamaran, Seacleaners project, etc.), Jean-Christophe

Mourniac (Tornado World Silver Medallist, etc.), Charles Dorange (3 times ISAF Youth World champion), and more. A unique opportunity to

admire these catamarans which fly over the water and race neck-and-neck at (very) high speeds! Organised by La Rochelle Nautique.

Introduced to the show in 2018, **this year the autumn National Windfoil will bring together 120 participants.** With the best in the discipline expected to attend, many Pôle France centres will be making the trip for this **unmissable event in the national calendar.** To date, these include: Julien Bontemps (Olympic silver medallist in Athens and winner of the NWF 2019), Pierre Le Coq (Bronze medallist in Rio), Nicolas Goyard (iQFoil 2021 World champion), Hélène Noesmoen (iQFoil 2021 and 2020 World champion), the young members of the French Olympic team, local racers from the Pôle France in La Rochelle (Fabien Pianazza, Adrien Mestre), the much-awaited participation of the multiple World Champion Antoine Albeau. No doubt the very best in

this sport will be present and a very high-level competition with about forty world champions is expected. This competition is organised by the Cercle Nautique d'Angoulins.

**The National Wingfoil** The cream of this new sport will be joining the many fans attending the weekend of the show to discover the equipment on display, chat with brands and competitors, and test and discover this new activity. Organised by the Cercle Nautique d'Angoulins.

**Also to be seen in the Highlights:** the presence of **Antoine Albeau with the Zéphir project**, the presence of the **Handi Cap'Access tent**, the **April Marine Paddle Jam** on Saturday 2 October, and more.

# THE FISHING SPACE & GRAND PAVOIS FISHING

## UNIQUE IN THE WORLD OF BOAT SHOWS!

The Fishing Space and Grand Pavois Fishing, created in 2008, has become a true platform for exchanges and discoveries between enthusiasts, visitors, brands accompanied by their competitors and pro staff. It features an **activities platform, demonstration basins, a Fishing Village with exhibitors, a fishing boat gallery, not to mention the Grand Pavois Fishing Marina where sea trials are available every day from 10 am to 7 pm.**

### TEST NEW PRODUCTS AT SEA AND FOLLOW COURSES ON-BOARD!

**Unique: the chance for visitors to test the boats, engines and equipment at sea.** The wish? To allow brands the chance to benefit from the presence of their pro-staff and enjoy the opportunity to have perfectly equipped units tested at sea. A great moment of sharing for all enthusiasts...

**Another asset of this in-water space is the chance to follow courses on embedded electronics and discover new equipment in action.** Nothing could

be more magical for many amateurs than setting out to sea accompanied by pro-staff in order to learn and discover how sounders and other embedded cartography works.

### A NO-KILL SEA FISHING CONTEST!

**Grand Pavois Fishing has joined the ranks of the leading national no-bait sea bass fishing contests.** Reserved solely for brands, this event will take place on Saturday and Sunday morning (8.00 am to 1.00 pm). A unique highlight since Grand Pavois La Rochelle is **the only in-water boat show to offer such a sea fishing contest!**

### RECORD-MORE THAN 30 CREWS EXPECTED.

No need to say that this edition of Grand Pavois Fishing will be exceptional! **More than 30 brand teams are expected for this 2021 edition (27 in 2019!)** including several new brands. Note that among the competitors and other pro-staff, Christophe Coutanceau (Michelin 3-star chef) will exceptionally be present. A dedicated angler, he also wanted to take advantage of the opportunity to promote sustainable gastronomy and seasonal fish consumption and to continue to teach better consumption behaviour. A

message which the Fishing Space and Grand Pavois Fishing wants to convey every year!

**There are also new partnerships at the Fishing Space and Grand Pavois Fishing with Suzuki Marine** which becomes a major partner alongside **April Marine and 4Water**. A strong commitment by the outboard engine brand which wants to promote its approach and its product range. Amiaud/Seanox also becomes a technical partner for the event by offering a net with specific types of mesh to each Grand Pavois Fishing crew so as to protect the fish and ensure that they can be returned to the water. Decathlon Pêche La Rochelle/Puilboreau also becomes a clothing partner for the Space.

**A COLLECTIVE OF PARTNERS COMBINED** with Suzuki Marine (new partner in 2021), April Marine, 4Water (security partner), Météo Consult (weather partner), [pecheur.com](https://www.pecheur.com), Decathlon Pêche La Rochelle/Puilboreau, Fishfriender and also APLR, Côtes de Bourg not to mention the media partners Pêche en Mer, Côt&Pêche and Fishing TV.

# ECO-RESPONSIBLE

## GRAND PAVOIS LA ROCHELLE!

If, today, CSR (Corporate Social Responsibility) is a notion that concerns all companies, the Grand Pavois La Rochelle show goes even further and **Grand Pavois Organisation (GPO) is setting up every day eco-responsible measures, especially for its Grand Pavois La Rochelle event: the organisation, its service providers, exhibitors, visitors, etc.**

In its internal practices, GPO has always been sensitive to **a systematic method of responsible purchases** for all its events and the Grand Pavois La Rochelle was the first boat show to set up **the**

**treatment of its waste – Grand Pavois Bleu – more than 15 years ago:** installation of selective sorting bins during assembly and dismantling, installation of recycling bins (blue and yellow) to encourage selective sorting by visitors, recycling of banners and flags by local associations, reuse of unused neck straps by associations, recycling of all paper media, reuse of carpets for other GPO events or by local associations, etc.

**GPO is continuing to develop new environmental measures - in the frame of the Grand Pavois La Rochelle show - to meet the major common goal of preserving the environment.**

- Targeting the organisation and its service providers.
- Targeting exhibitors.
- Targeting visitors

Several **events "within the event" will be held during the 2021 edition of the Grand Pavois La Rochelle** including, among other things, the setting up of a partnership with EDF (historic energy supplier in France) on the theme of "Eco-design and renewable energies" with a space called "*Port of the future*" where solutions for our ports of the future, and boats powered by renewable energies (electricity, hydrogen, water, etc.) will be exhibited.

Still with EDF, start-ups offering eco-responsible water sport projects will be presented to the public, the media and the water sport professionals present. Finally, via its **Grand Pavois La Rochelle event, GPO is adhering to the La Rochelle Charter of Eco-Responsible events.**

The Grand Pavois La Rochelle is focusing on the theme of "Sustainable Sailing and the Port of the future with EDF". Initiated in 2019, during the show, this partnership aims to present the new solutions that will be on the market in the future. As a stakeholder in the energy

transition, EDF defends and encourages eco-design and offers companies the chance to adapt their socio-economic model with the addition of new functions and the study of new uses. In the world of water sports, the move to electric is still underexploited despite a major development potential. The advantages of it are clear: less air and water pollution, less noise, vibrations, reduced costs, government subsidies, etc. The electric market in water sports currently represents about 1% of

the production of boatyards.

Based on this observation, EDF and Grand Pavois La Rochelle have set up a number of actions at the show:

- A Sustainable Innovations space devoted to companies working on innovative projects for the water sports sector will be available this year.

Discover: **Beyond the Sea**, boats towed by kite; **ADV Propulse**, biometric propulsion that allows the tiller to be removed and speeds three times greater; **Genevos - Océan Lab** presented by the sailor Phil Sharp, hydrogen fuel battery technology used for electric propulsion, **Bird-E marine** : electrical foil motorcycle etc.

- An "electric port of the future" with EDF recharging stations will be presented exclusively with a demonstration of electric boats. These include the **Passeur de La Rochelle** (an electric sea bus managed by the RTCR), **EM Marine**, **Bird e-Marine**, **ADV Propulse**, etc. Visitors will be able to meet the exhibitors and obtain a more accurate idea of the advantages of the new motorisation solutions in terms of noise, smell, and the cost reduction offered by these new technologies.

Remember that, from 1 January 2022, in marinas with a capacity of more than 100 mooring places, at least 1% of the quayside berths must be equipped with electric charging terminals and will be reserved for electric boats (Article L. 1521-4 / Amendment No.CD1086 of 7 May 2019).

- A thematic path at the show called "Sailing and ports of the future" will be proposed promoting exhibitors that offer solutions or innovations in terms of alternative energies. The aim is to raise awareness among new users and leisure sailors with regard to their uses. To find them at the show, specific signposting will be installed in front of the stands to identify them. They will also be listed in the digital version of the official catalogue and on the show's website.

**IMPORTANT - Friday 1 October: Day devoted to Sustainable Sailing and the Port of the Future**

This day will be under the patronage of Yves Parlier, sailor and President of Beyond the Sea.

Alain Pochon, President of Grand Pavois La Rochelle and Marin Leys, Director of EDF Regional Action for Nouvelle-Aquitaine, invite professionals and the press to a conference (invitation only) on Friday from 10.30 am to 12.30 pm at the Maritime Museum on the theme of "Ports and sailing of the future: the promising wind of decarbonisation".

Alain POCHON, Président de Grand Pavois Organisation et  
Martin LEYS, Directeur Action Régionale EDF Nouvelle-Aquitaine

ont le plaisir de vous convier,  
dans le cadre de la 49<sup>e</sup> édition du Grand Pavois La Rochelle, à la table ronde :

**PORTS ET NAUTISME DE DEMAIN : LE VENT PORTEUR DE LA DÉCARBONATION**

le vendredi 1<sup>er</sup> octobre 2021 de 10h30 à 12h30  
au Musée Maritime de La Rochelle

suivie d'un cocktail déjeunatoire et de la visite de l'exposition Climat Océan

Avec la présence exceptionnelle de :

Sophie PANONACLE, Députée de la Gironde, Présidente du Conseil National de la Mer et des littoraux  
et d'Yves PARLIER, navigateur, Président de Beyond the Sea

et les interventions de :

Frédéric MONCANY DE SAINT-AIGNAN, Président du Cluster Maritime Français  
Serge PALLARES, Président de la Fédération Française des Ports de Plaisance  
Thierry MEUNIER, Responsable activités portuaires et aéroportuaires, EDF

Invitation strictement personnelle • Places limitées • Inscription par mail à [partenariats@grand-pavois.com](mailto:partenariats@grand-pavois.com)

# HIGHLIGHTS OF THE SHOW

## THE IMOCA MAÎTRE COQ IV PRESENT AT THE SHOW-UNMISSABLE

The Imoca Maître CoQ IV – Winner of the last Vendée Globe with Yannick Bestaven. The 18.28-metre Imoca will be present and visible at the Grand Pavois La Rochelle on Wednesday 29 and Thursday 30 September. A great opportunity to admire this foil monohull which completed the round-the-world race in 80 days, 3 hours, 44 minutes and 46 seconds. Maître CoQ IV will be present at the honorary pontoon on Wednesday and Thursday.

**Further information:**

<https://www.maitrecoq.fr/lesprit-voile/>

*-Presence of Maître CoQ IV on Wednesday and*

*Thursday.*

## THE CRÉDIT MUTUEL CLASS40 AND ITS SKIPPER IAN LIPINSKI PRESENT AT THE SHOW-INNOVATIVE

This new-generation Class40 is constantly winning races and beating records! Skippered by the outstanding Ian Lipinski, the design by the architect Sam Manuard is definitely innovative with its rounded bow and exceptional performances. At its helm, Ian has won the Transat Jacques Vabre 2019, the Drheam Cup 2020, beat the record for the solo round the British Isles in 2020 and smashed the

record for the number of miles covered in 24 hours aboard a Class40 in 2021 with 421.4 miles (780 km) at an average speed of 17.4 knots (32.2 km/hour). Ian and his Crédit Mutuel will be at the Grand Pavois La Rochelle from Tuesday 28 September to Saturday 2 October. Next date, the Transat Jacques Vabre 2021 with a title to defend!

**Further information:**

<https://skippercreditmutuel.fr/>

*-Present all week at the end of pontoon 7 at the Boat of Honour site.*

## UNU MONDO-GLOBAL WARMING

In the Arctic, average temperatures have increased twice as fast as elsewhere. It's a huge change which has a daily impact on the local population, the plant

life and the wildlife. From France to Greenland (2020), the Unu Mondo expedition set out on 29 June 2020 to meet people whose daily lives have been affected by climate change. Aboard, the skippers Tobias and Sophie were accompanied by scientists and photography professionals. Their aim? To put images and faces to the melting ice-cap, a concept which many seem abstract to we Europeans. Unu Mondo is an expedition that combines human, social and natural science in order to encounter, understand, document and relay. Come and meet them and discover Northabout, this historic sailing boat especially designed and fully equipped to sail in Polar regions.

**Further information:**

<https://www.unumondo.org/fr/accueil/>

*-Present all week at pontoon 2 with an exhibition laid out along the length of the boat.*

# HIGHLIGHTS OF THE SHOW

## PRESENTATION OF THE ZEPHIR PROJECT BY ANTOINE ALBEAU AND MARC AMERIGO-EXCLUSIVE

Antoine Albeau, the French sportsman with the most titles (25 times World Champion) and current holder of the windsurfing world speed record, and Marc Amerigo, Project leader and creator of "UltraPerformance through Human Empowerment" and the holder of many speed records, have joined forces for the **Zéphir project which aims to revolutionise the world of speed on water by exploring the augmented windsurf**. The Zéphir project plans to develop the windsurf board of the future and beat the absolute world speed sailing record (65.45 knots). Meet Antoine and Marc who will present this incredible project supported by an **international team comprising 80 experts and 50 companies** from the world of ocean racing (America's Cup, Volvo Ocean Race, Vendée Globe), but also from F1, the aerospace sector, modelling, 3D, film, design and even artificial intelligence... Fascinating!

*-Present all week at La Plage.*

## THE BIG IDEA-ATLANTIC ROCK'N ROLL!

**The Big Idea** is six childhood friends, all from La Rochelle: Matéo, Sinclair, Sacha, Victor, Louis and Pierre. In October 2021, they will set off on their **first Atlantic crossing**, an original pop & rock transatlantic trip. In 2015, the group of six decided to rent a place together in the Paris region. They spent five years there, during which time **they recorded several Eps and three albums** and performed 150 concerts around Europe. The health crisis led them back to where they came from, La Rochelle, to work on a new project: **to record their next album aboard a sailing boat as they**

cross the Atlantic. The project took shape and they will be leaving the city of the two towers on the Sunday of the show.

Further information: <https://thebigidea.fr/>

*-Present from Tuesday to Thursday at pontoon 2*

*-Tuesday 28 September at 6.30 pm Concert at La Plage*

*-The Big Idea sets out on its Atlantic crossing on Sunday.*

## PRIDE OF PLACE FOR THE SNSM-A MUST

At the show, several actions will be set up to promote the work of the SNSM: presentation and visit to the SNS 144 launch, presence of other sailing resources, demonstration of survival rafts, recovery of survivors from a shipwreck, first-aid, helicopter winching demonstration, etc.

Further information: <https://www.snsn.org/>

*-Friday 1st October at 11.30 am-Launch of the SNSM's new rigid-hulled inflatable and presence of several intervention resources.*

*-Friday 1 October at 2.00 pm-Helicopter winching demonstration in front of La Plage.*

# HIGHLIGHTS OF THE SHOW

## THE HANDI CAP'ACCESS CENTRE A SUBJECT OF INTEREST FOR ALL

The Handi Cap'Access Centre will celebrate its 11th edition at the Grand Pavois La Rochelle this year. The aim of this centre is to **inform visitors and guide and assist people with disabilities who have come to try**

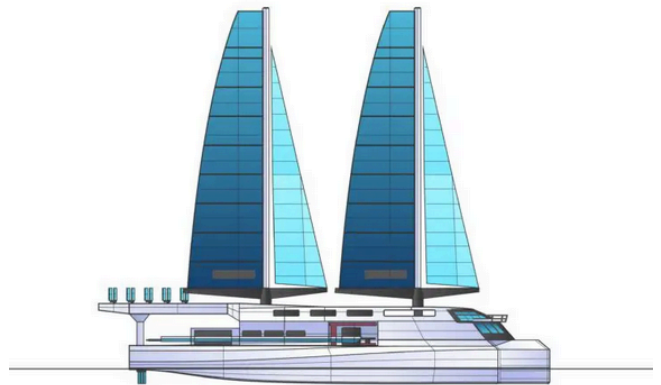

**water sports thanks to introductory experiences and shared experiences.** In partnership with Charente-Maritime Departmental Council and the two Departmental Adapted Sport and Handisport Committees, the Handi Cap'Access Centre will again offer **try-outs aboard sailboats present in the in-water space at the Grand Pavois La Rochelle and the chance to try water sports activities at La Plage** (kayaks, jet-skis, etc.).

**A specific 100 sqm tent** will be available at the entrance to La Plage with the presence of the Sport Adapté 17 and Handisport 17 Departmental Committees and the Charente-Maritime Departmental Council in order to inform, welcome and assist people with disabilities wishing to obtain information or find out more and try their hand at water sports activities. During the last edition of the Grand Pavois La Rochelle in 2019, **634 people participated and 509 try-outs were offered over the 6 days of the show.**

## ESPRIT DE VELOX WITH CATHERINE CHABAUD (MEP)-DEMAIN

**Pioneering research, innovation and mediation programme combining a multidisciplinary and responsible approach to the Ocean,** Esprit de Velox initiated by François Frey is based on three main lines: the design of a bio-inspired energy-independent vessel with no operational environmental impact; the sharing of knowledge and the infusion of a culture of the Earth system. Esprit de Velox is an Ocean Decade contribution by the United Nations.

Further information: <https://www.espritdevelox.org/>

*-Thursday 30 September at 2.00 pm at the VIP Space-Discussion with Catherine Chabaud, MEP and "Voix de l'Océan" on the subject of the Esprit de Velox project with François Frey.*

## PASSE-COQUE WITH JIMMY PAHUN (MEMBER OF PARLIAMENT FOR MORBIHAN)-RESTORATION

The Passe-Coque association, created in 2019 in Morbihan, applies the very simple idea of **saving and restoring boats which have been abandoned or which are destined for deconstruction.** A concrete vision of the idea and concept of how boats are restored. The association, the motto of which is " Transmettre pour renaître et naviguer utile: c'est avec nous que ça se Passe!" (Hand down to give a new lease of life and sail usefully: that's what we do!) has 14 vessels: six can sail and eight are undergoing restoration. All these boats have a go-to person and an associated project (humanitarian, associative).

Further information: <https://passe-coque.com/>

*-Thursday 30 September at 3.30 pm Encounter with Jimmy Pahun (Member of Parliament for Morbihan) and Pierre-Jean Jannin (President) on the theme of the Passe-Coque association.*

# HIGHLIGHTS OF THE SHOW

## FOCUS ON COASTAL PROFESSIONS WITH THE CDA LA ROCHELLE-AVENIR

With more than 2,000 job offers currently available, the region of La Rochelle is showing its get-up-and-go. The Communauté d'Agglomération has decided to **showcase coastal professions**: sailing, port, sea and tourism professions. At the **"Focus on coastal professions"** stand (stand G06), the Agglomération, Pôle Emploi, Cap métiers, Cap Emploi and the Espace Régional d'Information de Proximité will be present to inform visitors (mainly job-seekers and school groups) and professionals. You will be able to **consult job offers** there, in particular those posted on [emploi.agglo-larochelle.fr](http://emploi.agglo-larochelle.fr) thanks to a terminal made available to visitors. Films presenting the professions and virtual reality immersive experiences will also be available. A mixture between a discovery path and Job dating, the Agglomération's stand will offer the chance to **discover the sectors of activity and professions** and **meet recruiters** at the Job dating.

## THE RALLYE DES ILES DU SOLEIL-A TRANSATLANTIC FLOTILLA TO BE ENJOYED WITH FAMILY OR FRIENDS!

This Transatlantic event between La Palma (Canary Islands) and Marie-Galante (Guadeloupe) via Mindelo (Cape Verde) organised by GPO is open to all leisure sailors with boats over 10 metres. With the fourth edition departing on 28 October 2022 from La Palma (Canary Islands), you will be able to find more detailed information at the in-water stand, meet participants from previous editions

with their boats, discover Marie-Galante, and sign up for the 2022 event.

Further information: [www.rallye-ilesdusoleil.com](http://www.rallye-ilesdusoleil.com)

*-Presentation of the Rallye des Iles du Soleil by GPO at the stand every day at 11.00 am*

*-Thursday 30 September: Signature of the partnership agreement with the Communauté de Communes de Marie-Galante, a key partner of the Rallye des Iles du Soleil.*

## A PADDLE GATHERING OPEN TO ALL!-A FIRST

New event at the Grand Pavois La Rochelle: the **APRIL MARINE PADDLE JAM**, a SUP event open to all departing from La Plage and travelling to the Old Port of La Rochelle and back again on Saturday 2 October. The idea? To have fun and sail together on SUPs without any spirit of competition. A protected and secure 7-km round trip and the chance to enjoy the unique experience of passing between the two emblematic towers of the Port of La Rochelle. **Olivia Piana, 3 times SUP World Champion, will be the patron of this event within the event. Unique!**

Further information: [www.paddlejam-gp.com](http://www.paddlejam-gp.com)

*-Departure Saturday 2 October at 3.00 pm-La Plage*

## THE INA PRESENT AT THE SALON-SOUVENIRS

The French National Audiovisual Institute will be present at the show for the first time and more specifically at the France Bleu La Rochelle stand. Some audiovisual treats will be on offer via an interactive terminal set up to showcase archive documents on the subject of sailing. Magical!

Further information: <https://www.ina.fr/>

# LIST OF NEW BOATS
